(PERMIT TERMS CONTINUED)

The permittee shall submit a report to the State Engineer on a semi-annual basis which contains all surface and groundwater measurements and water use date from each of the permittee's wells which includes the pumping under this temporary permit.

The State Engineer retains the right to impose future conditions as necessary upon review and evaluation of data submitted as a result of the monitoring program on file with the State Engineer.

This temporary permit is further issued subject to the understanding between St. Joe Bullfrog, Inc. (Bond Gold) and the National Park Service dated September 16, 1988, as set forth in the document titled The National Parks Service Position with Respect to the Applications for Water in Amargosa Valley by St. Joe Bullfrog, Inc. (Bond Gold) on file in the State Engineer's office.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 51841 through 51848, inclusive, 57003-T, 57277-T and 57278-T shall not exceed 1500 acre-feet annually.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water diverted from each well and the amount of water used.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on March 19, 1993 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
